I. BACKGROUND

Concerns by the citizens of Missouri and the Missouri legislature regarding allegations of racial profiling by law enforcement prompted the passage of state law [Section 590.650](#), RSMo (2000), which was enacted Aug. 28, 2000. Racial profiling has been defined as the inappropriate use of race by law enforcement when making a decision to stop, search or arrest a motorist.

Missouri's state law requires that all peace officers in the state report specific information including a driver's race for each vehicle stop made in the state. Law enforcement agencies are required to turn in the data to the Attorney General, and the Attorney General is required to compile the data and report to the Governor no later than June 1 of each year. The law allows the Governor to withhold state funds for any agency that does not comply with the law. State law requires that all information be reported to the Attorney General's Office by March 1.

The summary of statewide racial profiling data has been provided by Scott H. Decker, professor and director of the School of Criminology and Criminal Justice at Arizona State University; Richard Rosenfeld, professor in the Department of Criminology and Criminal Justice at the University of Missouri-St. Louis; and Jeffrey Rojek, assistant professor in the Department of Criminology and Criminal Justice at the University of South Carolina.

Table 1. 2009 statewide summary of results

Key Indicators	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Population	4,696,178	3,922,991	503,165	117,483	70,913	23,884	57,742
Stops	1,715,792	1,356,039	297,828	34,766	14,342	1,522	11,295
Searches	115,777	79,655	30,690	4,450	386	120	476
Arrests	84,309	58,073	22,494	3,087	253	88	314
Statewide population %	100%	83.54%	10.71%	2.50%	1.51%	.51%	1.23%
Disparity index	---	.95	1.62	.81	.55	.17	.54
Search rate	6.75%	5.87%	10.30%	12.80%	2.69%	7.88%	4.21%
Contraband hit rate	20.75%	22.56%	17.22%	13.42%	14.25%	22.50%	18.28%

Arrest rate	4.91%	4.28%	7.55%	8.88%	1.76%	5.78%	2.78%
-------------	-------	-------	-------	-------	-------	-------	-------

Notes: Population figures are 2009 census estimates for persons 16 and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

[[back to top](#)]

II. STATEWIDE FINDINGS

This report summarizes the data from 642 law enforcement agencies in Missouri for calendar year 2009. An additional 44 agencies indicated they made no traffic stops during the year. This represents 98.3% of the 698 law enforcement agencies in the state. The agencies filing reports recorded a total of 1,715,792 traffic stops, resulting in 115,777 searches and 84,309 arrests. [Table 1](#) breaks out the stops, searches and arrests by race and ethnic group. [Footnote 1](#)

The population totals in the table are Census estimates for 2009 compiled by Geolytics, Inc. In reports for years prior to 2005, the population totals were from the 2000 Census. The estimated totals are used in this report to reflect population change in Missouri since 2000. "These estimates," according to the U. S. Census Bureau, "are used in federal funding allocations, as denominators for vital rates and per capita time series, as survey controls, and in monitoring recent demographic changes" (emphasis added; see www.census.gov/popest/estimates.php). [Footnote 2](#)

Four summary indicators are included in Table 1 that may be useful in initiating further assessments of racial profiling in traffic stops. The first, termed the "disparity index," relates each group's proportion of total traffic stops to its proportion of the driving-age population 16 years-old and older. A value of 1 on this index indicates that a group's proportion of traffic stops equals its population proportion: it is neither "under-represented" nor "over-represented" in traffic stops. Values above 1 indicate over-representation, and those below 1 indicate under-representation. For example, the 1,356,039 whites who were stopped accounted for 79.0% of all traffic stops in 2009. Whites comprise an estimated 83.5% of Missouri's driving age population. The value for whites on the disparity index is, therefore, .95 (.79033/.83536). Whites were stopped, in other words, at slightly below the rate expected based on their fraction of the estimated population age 16 and over.

The same is not the case for several of the other groups. African-Americans represent 10.7% of the population sixteen years and older but 17.4% of all traffic stops, for a value on the disparity index of 1.62. African-Americans were stopped at a rate 62% greater than expected based solely on their proportion of the population sixteen and older. Hispanics were stopped at a rate somewhat below their population proportion, and Asians, American Indians, and persons of mixed or unknown race were stopped at a rate well below their proportion of the driving-age population. The values on the disparity index for the different groups can be compared directly to one another. For example, the likelihood that a black motorist was stopped is 1.70 times that of a white motorist (1.62/.95). In other words, blacks were 70% more likely than whites to be stopped based on their respective proportions of the Missouri driving-age population in 2009.

The disparity index is a gauge of the likelihood drivers of a given race or ethnic group are stopped based on their proportion of the residential population age 16 and over, and not of the population of motorists on the state's streets, roads, and highways. A group's share of the residential population age 16 and over may or may not equal its proportion of drivers. Although in most instances the two proportions should be close, that may not always be the case. The extremely low DI value for American Indians, for example, could indicate that they are under-represented among the state's motorists. In addition, motorists from other states are stopped on Missouri's roadways. To the extent that out-of-state drivers do not reflect the race and ethnic composition of Missouri's population, the Disparity Index will not accurately portray the probability that Missouri residents are stopped.

The second indicator that can be used to assess racial profiling is the "search rate," or the number of searches divided by the number of stops (x 100). (Searches include searches of drivers or property in the vehicle.) The search rate for all motorists who were stopped is 6.8%. Asians were searched at a rate well below the statewide average, and Blacks, Hispanics, and American Indians were searched at rates above the average for all motorists who were stopped. The search rate for the different groups also can be compared directly with one another. Blacks were 1.76 times more likely to be searched than whites (10.30/5.87). Hispanics were 2.18 times more likely than whites to be searched (12.80/5.87).

The reasons for conducting a search and the outcome of the search (i.e., discovery of contraband) should be considered when making comparisons across groups. Some searches are conducted with the consent of the driver, or because the officer observed suspected contraband in plain view, had reasonable suspicion that an individual may possess a weapon (Terry

search), or other reasons. These searches may or may not result in an arrest. Other searches are conducted incident to arrest -- this means that there is no other reason given for the search other than arrest. Searches are almost always performed when there is an outstanding arrest warrant, whether or not contraband may be present.

The third summary indicator, the "contraband hit rate," reflects the percentage of searches in which contraband is found. Contraband was found in 20.8% of all searches that were conducted in 2009. However, there is considerable variation in the contraband hit rate across race and ethnic groups. The contraband hit rate for whites was 22.6%, compared with 17.2% for Blacks and 13.4% for Hispanics. This means that on average searches of Blacks and Hispanics are less likely than searches of whites to result in the discovery of contraband. This difference may result in part from the higher arrest rates for blacks and Hispanics, circumstances that compel a search.

The "arrest rate" is the fourth summary indicator included in Table 1 that may be useful for assessing racial profiling. Just under 5% of all traffic stops resulted in an arrest (84,309/1,715,792). The probability of arrest varies across the race and ethnic groups. Approximately 7.6% of the stops of African-Americans and 8.9% of the stops of Hispanics resulted in arrest, compared with 4.3% of the stops of whites. African-Americans and Hispanics are searched more often than whites, but they are arrested more often as well.

There are three Appendices to this year's full report. Appendix A presents the traffic stop analysis using the statewide proportions of race and ethnicity, rather than those for each jurisdiction. This year's report compares the 2009 disparity index to the disparity index for 2000 through 2008. These comparisons are presented in Appendix B. For each agency, the disparity index for each race-ethnic group is presented for the years 2000-2008. For the state as a whole, the key indicators show small changes between 2008 and 2009. The disparity index is generally stable across the two years, although Hispanics were nearly 15% less likely to be stopped in 2009 than in 2008 (DI = .81 and .95, respectively). The search rate (the percentage of stops in which a search is conducted) decreased for all groups, as did the arrest rate. The third appendix included with this year's report, Appendix C, presents the key indicators using the 2000 Census figures for each jurisdiction's race and ethnic populations.

A reasoned determination of the existence of racial profiling in a community requires a comprehensive evaluation of the full range of information compiled in the agency reports. This brief summary of selected indicators for the state as a whole is intended to stimulate those local evaluations and dialogue.

ANALYSIS BY ATTORNEY GENERAL CHRIS KOSTER

Footnote 4

10 years ago Missouri released its first report on vehicle stop data. This report represents the tenth annual analysis of vehicle stop data in Missouri, a review that includes information about more than 1.7 million stops by law enforcement in the state during 2009. This report can be compared to data going back to 2000 on the Attorney General's Web site at ago.mo.gov.

The analysis in 2009, as well as in 2005, 2006, 2007 and 2008, used census estimates to reflect the changes in Missouri's population since the 2000 census. That census was the benchmark for the previous five reports.

As our state's population changes in number and demographics, these census estimates can help provide a more accurate benchmark to analyze the data. (Appendix C of this report provides key indicators by each agency using the 2000 census information.)

The overall number of stops reported increased in 2009. As it has in the past, the disparity index for African-American drivers continues to be of significant concern. The disparity index for African-American drivers increased from 1.59 in 2008 to 1.62 in 2009. The disparity index for Hispanic drivers decreased from .95 in 2008 to .81 in 2009, however, both groups continue to have search rates significantly higher than that of white drivers.

These findings continue a disturbing trend for African-American drivers in Missouri. Specifically, the disparity indexes for African-American drivers have increased each of the last five years, exhibiting disparity indexes of 1.42 in 2005, 1.49 in 2006, 1.58 in 2007, 1.59 in 2008 and 1.62 in 2009. In fact, the disparity rate for African-American drivers has gone down only one time in the history of the report, and then only slightly, to 1.34 in 2004 from 1.36 in 2003. Stated another way, the disparity index for African Americans has increased in nine of the last ten years. The 2009 disparity rate of 1.62 compares to a rate of 1.27 ten years ago.

With 642 law enforcement agencies conducting vehicle stops in Missouri, there is no single explanation why these disparities exist. This report provides statistical information so the data from each agency can be examined, and appropriate questions asked of those agencies.

In 2004, state law was changed to require law enforcement to include investigative vehicle stops in their reports, in addition to the stops for traffic violations.

One of the best uses of these reports is as a springboard for dialogue and communication between law enforcement agencies and the communities they serve. It is vital that Missouri law enforcement agencies continue to review the rates of stops and searches and to continue their outreach efforts.

Statistical disproportion does not prove that law enforcement officers are making vehicle stops based on the perceived race or ethnicity of the driver. The compilation and analysis of data, however, does help both law enforcement and the community with a starting point for dialogue to appreciate each other's perspective and arrive at common ground.

I am proud that Missouri took a leading role, under the stewardship of then-Attorney General Nixon, Governor Carnahan and many in the legislature, in passing legislation requiring the collection and examination of vehicle stop data on this scale. We are continuing that tradition in carrying on the detailed and critical examination necessary to ensure fairness to Missouri's law enforcement application. It is my hope that this report may serve as a springboard to open dialogue and legislative review.

We continue to show that commitment through laws that require each law enforcement agency to not only have a written policy regarding racial profiling, but also to provide additional training to officers and to promote the use of effective, non-combative methods for carrying out their duties in a racially and culturally diverse environment.

Missouri's law enforcement members continue to do commendable work in the face of many challenges. I appreciate their efforts and willingness to compile the information for these annual reports.

The number of agencies that did not comply with the vehicle stops reporting law in 2009 continued to be relatively low at 13. This represents an increase from 2008 when 11 departments failed to report. Failure to report is unacceptable and should be considered so by the General Assembly. A list of these agencies has been turned over to the Governor for imposition of the statutory sanctions.

Along with the data, several individual law enforcement agencies provided other information about factors that may impact their numbers. The reader should consider these factors when examining the data.

Law-abiding drivers have the right to travel throughout Missouri without the fear that they will be stopped based solely on their race or ethnicity. I am confident that Missourians of all races and ethnic groups and law enforcement officers from throughout the state agree with me.

[[back to top](#)]

FOOTNOTES

Footnote 1: Hispanics may be of any race. About 1 percent of the population designated two or more races. These persons are included in the "other" category along with persons of unknown race.

Footnote 2: For detailed descriptions of the methodology used in forming the population estimates, see www.census.gov/popest/estimates.php and www.geolytics.com/USCensus.Estimates-Projections.Data.Methodology.Products.asp.

Footnote 3: Caution should be used when comparing 2000 to subsequent years, especially for smaller agencies, because the 2000 figures are based on only four months of traffic data, while those for subsequent years are based on the full calendar year.

Footnote 4: The executive summary relies upon and updates materials prepared for the 2007 Annual Report published under the administration of Attorney General Jay Nixon.

Agency response

Adair County includes Kirksville which is a college town. A large number of people (students/parents) travel through this area on a regular basis. U.S. Highway 63 runs north and south through Adair County and State Highway 6 runs east and west, thus adding to the number of people within the county perimeters.

Search rate	4.18	4.18	0.00	8.00	0.00	0.00	0.00
Contraband hit rate	49.09	49.06	#Error	50.00	#Error	#Error	#Error
Arrest rate	1.59	1.58	0.00	4.00	0.00	0.00	0.00

Notes: Population figures are 2009 Census estimates for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

#Error indicates zero denominator.

Agency response

We have 4 major shopping centers, and 6 strip malls with a total of 175 retail stores and 10 banks. We have 2 major interstate highways that access our city bringing approximately 170,000 vehicles thru our city per day. Our daytime population inflates to approximately 50,000 people. Brentwood is located centrally in the St. Louis Metropolitan area and in close proximity to St. Louis County Government Center, jail and Courts. The Metrolink light rail system has a substation in our city with an attached 10 story parking garage that accommodates 1200 parking spaces. Our police department's racial profiling data for 2009 is consistent with data compiled for the past ten years for our police department.

Agency response

The Carthage Police Department would respectfully like to point out that we have many large industries in our city, including a nationally known poultry plant. These industries bring many good things into our area and we are proud to have them. However, many people that are contacted during traffic stops in our city are not legally in the United States. Carthage is attractive to non-legal citizens hoping to find employment. When these individuals cannot produce valid identification or driver's licenses, our arrest numbers and search incident to arrest numbers are skewed. In addition, a major state highway runs through our jurisdiction bringing many people of diverse backgrounds through Carthage.

Agency response

The City of Chesterfield includes a very diverse workforce in the number of employees working in light industrial areas, airport, shopping centers, nursing facilities and medical centers within the city limits. A vast number of those employees live outside the corporate limits, driving on the various state highways which include Interstate 64.

During 2009, access to public transportation in the area became more limited due to discontinuation of bus service to many parts of the community which in turn lead to an overall increase in traffic. Additionally, the commercial/shopping district is a hub for many shoppers from the entire region. More automobile traffic leads to more traffic congestion, auto crashes and ultimately more traffic law violations.

RACIAL PROFILING DATA/2009

Agency: Clay County Sheriff's Dept.

Population: 171,189

age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	3324	2997	202	73	37	0	15
Searches	223	181	27	14	1	0	0
Arrests	194	152	27	13	2	0	0
Statewide population %	N/A	83.54	10.71	2.50	1.51	0.51	1.23
Local population %	N/A	87.34	4.69	4.07	2.07	0.51	1.32
Disparity index	N/A	1.03	1.29	0.54	0.54	0.00	0.34
Search rate	6.71	6.04	13.37	19.18	2.70	#Error	0.00
Contraband hit rate	21.08	22.10	18.52	14.29	0.00	#Error	#Error
Arrest rate	5.84	5.07	13.37	17.81	5.41	#Error	0.00

Notes: Population figures are 2009 Census estimates for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

#Error indicates zero denominator.

Agency response

The City of Clayton is the county seat for St. Louis County. It contains the courts, government offices, juvenile detention center and the St. Louis County justice Center, which houses over 1,000 inmates. In addition, Clayton is the home of several major corporations and contains over 6.5 million square feet of office space and one million square feet of retail. It is estimated that over 80,000 people visit Clayton on a daily basis to work, shop or do business. Most of those visiting Clayton reside in the St. Louis Metropolitan Area. Additionally, a number of major thoroughfares run through Clayton carrying commuters from various parts of the county requiring a significant amount of traffic enforcement: 1-70, Forest Park Parkway, Hanley Rd., Clayton Rd., Brentwood Blvd. and Forsyth. Therefore, it is felt that, for purposes of this study, the racial makeup of the population should be in direct proportion to that of the St. Louis Metropolitan Area. At the very least, the racial breakdown should be in line with that of St. Louis County as a whole, rather than the resident population of Clayton. If the racial makeup of St. Louis County was used, the disparity index for blacks in the City of Clayton would be 1.48.

Agency response

The City of Clinton is located on the main route between Kansas City Metropolitan Area and the City of Springfield. As a consequence, a large number of non-Clinton residents pass through the City of Clinton. 62% of all traffic stops made by the Clinton Police Department take place on state highways. Given the number of non-resident drivers stopped on state highways for traffic violations, any comparisons utilizing the population of the City of Clinton are inherently flawed.

Agency response

As additional information to the 2009 Racial Profiling Data, the City of Crestwood has a regional shopping center and six other shopping areas that include some "big box" retailers. We also have part of I-44 and Watson Road (Hwy 366), which is a major thoroughfare through the St. Louis area and is lined with businesses in Crestwood. A more accurate reflection of the demographics of our driving population would be the demographics for the metropolitan St. Louis area and not just the population for the City of Crestwood. Summons and warnings were written to drivers from 89 different zip codes in the St. Louis/St. Louis County area and Eastern Missouri.

Agency response

I have studied the summary of racial profiling data sent to me by your office for our police department. I believe there are a number of factors to be considered when analyzing this data and that it must be placed in the proper context before drawing any assumptions or conclusions. The City of Gladstone contains three sizable apartment complexes along a major thoroughfare through the City that serves as the principal connection to U.S. Highway 169, a well-traveled freeway that connects Gladstone to the City of Kansas City, and links our City to the Kansas City International Airport. These three apartment complexes offer government-subsidized housing that contains a disproportionate percentage of minority tenants. The City of Gladstone is completely surrounded by urban Kansas City, Missouri. There are several apartment complexes located within Kansas City that are immediately adjacent to the City of Gladstone and appear to house significant percentages of minority tenants. Several of these apartment complexes are accessible only via Gladstone city streets, generating significant motor vehicle traffic by motorists - including minorities - through Gladstone. In addition, Gladstone experiences considerable vehicular traffic that originates or terminates within Kansas City and does not involve Gladstone residents or their visitors. The combination of freeway access, being surrounded by metropolitan Kansas City, the concentrations of lower-income minority tenants in three apartment complexes, the visitor traffic generated by these apartments, and traffic generated from outside our City, attracts a higher percentage of motorists - including minorities - than the proportion of minority residents of the City would suggest. The Gladstone Public Safety Department has established policies to assure that minorities are not disproportionately subject to stops or arrests by our police officers. These policies are reinforced by active supervision of our law enforcement officers to assure that racial profiling or other discriminatory behavior does not exist.

Agency response

The City of Glendale is a bedroom community in the central-west county area of metropolitan St. Louis. We are at the mid-point of three major shopping malls. We have one state highway with an average daily traffic count of over 30,000 vehicles. That number was greatly increased in 2009 due to the shutdown of Interstate 64, which parallels State Highway 100. We have two county arterial roads, both averaging over 10,000 vehicles per day. We are within a half-mile of Interstate 44, which allows for easy access to St. Louis and the Interstate System.

Agency response

The City of Hannibal has both the US 61 and US 36 Highways intersecting within its boundaries. In addition, Hannibal is known as "America's Hometown" and for "Mark Twain" which draws a sizable number of tourists annually. Considering all these factors demonstrates Hannibal's local population as related to race is an inaccurate representation of what local law enforcement officers encounter in the performance of their duties. The statewide population % concerning race is a more accurate representation of the populace officers interact with during the completion of their duties.

Agency response

Some of the contributing factors for the index being over 1 are as follows: Jasper County has several miles of I-44, US 71, State Hwy 96 and State Hwy 43 running through it. We also have 2 major Universities (MSSU, OCC) in our County and several large corporations (Conway Trucking, Tri-State Trucking, Eagle Picher, Leggett and Platt among several other businesses that employ people who do not live in our jurisdiction or state. We border Kansas and Oklahoma. We also have a large mall in Joplin that is in Jasper County. A lot of people traveling through our county, working in our county or going to school in our county do not reside in Jasper County. Our population for Jasper County is approximately 105,000 residence but the Chamber of Commerce estimates that on any given day there are over 200,000 people in our county.

RACIAL PROFILING DATA/2009

Agency: Jasper Police Dept.

Population: 832

age 16 and over

Agency response

Disparity indexes have not fluctuated significantly since the data collection began in 2000. However, these numbers should be interpreted cautiously. Specifically, relying on the census population for ages 16 and over as a benchmark does not provide a realistic picture of the driving population in Kansas City, Missouri at any given time. There are several major thoroughfares that run through the city, including I-29, I-35, and I-70 that contain a large percentage of drivers not reflected in the static census population used for comparison purposes. Additionally, Kansas City is contained within a metropolitan population of approximately 2.0 million, which adds to the commuter population on the major thoroughfares. Also, when examining search rates, the probable cause/authority to search reasons should be considered. By design, the form on which the AG office submitted the summary report did not include the new category Stop Outcome "Other", which accounted for 4,753 stops. The Total Stops figure, however, includes stops associated with this new category. Lastly, KCPD views vehicle stop data collection as one of many tools to address the issue of racial profiling. Other tools in use by the department include training, community programs, and policies.

Agency response

Interstate 35 runs through the center of Kearney with exits onto Missouri 92 Highway, where a large high-volume truck stop is located. Missouri Highway 33 and Missouri Highway 92 also run through Kearney and intersect with the Kearney City limits just east of Interstate 35. Within a five (5) mile radius of the Kearney City limits are a large number of subdivisions that have a population of more than 24,000 people. Most of these people drive through Kearney on a daily basis, using Interstate 35, Missouri 92 or Missouri 33.

RACIAL PROFILING DATA/2009

Agency: Kennett Police Dept.

Population: 8,005

age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	2983	2487	406	79	3	0	8
Searches	190	124	53	13	0	0	0
Arrests	192	137	41	14	0	0	0
Statewide population %	N/A	83.54	10.71	2.50	1.51	0.51	1.23
Local population %	N/A	83.35	12.12	2.54	0.57	0.27	1.15
Disparity index	N/A	1.00	1.12	1.04	0.18	0.00	0.23
Search rate	6.37	4.99	13.05	16.46	0.00	#Error	0.00
Contraband hit rate	33.68	37.90	28.30	15.38	#Error	#Error	#Error
Arrest rate	6.44	5.51	10.10	17.72	0.00	#Error	0.00

Notes: Population figures are 2009 Census estimates for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

#Error indicates zero denominator.

Agency response

Kirksville is home to two major universities whose enrollment data is not totally reflected in the census figure. Truman State University and Kirksville College of Osteopathic Medicine account for an additional 6,000 students/residents (2009 numbers indicate that 19.3 percent of the Truman students are identified as other than white, and 96 percent come from outside Kirksville, including at least 309 international students). Kirksville is located on one of the few major north-south state highways (Highway 63) that service northern Missouri and southern Iowa. 8,700 vehicles per day travel the highway into and out of town. Kirksville is the largest city for miles and is the cultural/economic hub for a very large area. This expands the pool of those not counted in the city's census information.

Agency response

Thank you for the opportunity to comment on the racial profiling data report for 2009. I am sure that you realize the topic of racial profiling is very important to the City of Ladue. We have a civilian board of Fire Police Commissioners that reviews our department's activities, and the number of stops of African-American drivers by our officers is routinely analyzed by the commissioners to identify and stop any untoward activities. This oversight has been in place since this data was first collected in 2000. The City of Ladue does not engage in racial profiling and we have been proactive to insure that our department complies with the letter and spirit of the law. Based upon this constant monitoring of our department's stops, we do not believe the racial disparity index tells anyone anything with respect to Ladue's policies on stopping vehicles. Frankly, the way the disparity is calculated violates the requirements of Section 590.4(c), RSMo, and dictates that the City's disparity index will always exceed 1.0. This is for the simple reason that the African-American population of Ladue is about 1% but the percentage of African-American drivers in our City far exceeds the City's African-American population. Over 300,000 vehicles pass through Ladue on a daily basis on Interstate 64, Interstate 170, Clayton Road and Ladue Road. While there is no valid method of determining the racial makeup of the drivers of those vehicles, the African-American population of St. Louis County is 20.82% (as of the 2000 census), and we believe the percentage of African-American driving in and through the City of Ladue is far closer to that of St. Louis County than it is to the City of Ladue's. If Ladue's disparity calculation were to use the St. Louis County African-American percentage, our "disparity index" would be less than 1.00. Although the City of Ladue does not accept the "disparity index" as indicative of any problems and had consistently rejected the analytical method of its calculation, rest assured that we will use this report as a catalyst to continue our emphasis on and commitment to race neutral law enforcement.

Agency response

This community has a major employer (pork processing plant) that has a work force of 700-800 that is primarily Hispanic. This population can have frequent turn-over so it is difficult to keep everyone informed of traffic laws. Warnings are usually given before tickets are issued.

Agency response

North Kansas City has a list of demographics that make it a challenge to discern meaningful data regarding racial profiling analysis. The city is only 4.5 square miles, with less than 5,000 residents however, 6 highways travel through the city limits carrying an estimated 200,000 vehicles a day. Furthermore, the city's daily workforce/daytime population is estimated at 30,000 people at over 1,100 businesses. There is no information regarding the race/sex make up of the daily motorists or the work force. Due to the small size of the department, and the unique "Urban Village" description, we are not able to compare individual officer's statistics with other officers, and we also consider the Kansas City, Missouri census data (which surrounds our city limits on all sides) when we are determining the reasonableness of our statistics.

Agency response

I am concerned with several of the Disparity Index findings since it appears they are figured off of a population total from our city based on the census taken in the year 2000. Those population figures used show a population for the City of O'Fallon to be 52,352. Starting in approximately 1998, the City of O'Fallon experienced a rapid growth in population unknown to most cities. The 2009 figures obtained from our Department of Economic Development shows the population to be estimated at 79,158. This is a difference of 26,806.

When the City of O'Fallon was incorporating new areas, it did not include areas that are within the O'Fallon boundaries that we feel should be considered when finalizing this report. If these areas would be included, the estimated population would possibly be in excess of 82,000. Even though the demographics cannot be exact, it is reasonable to believe those numbers would change the Disparity Index figures.

Agency response

Olivette is a major corridor for the St. Louis Metropolitan area with major interstates and roadways that pass through or are immediately adjacent to the city. These interstates and roadways are the pipeline connecting thousands of people traveling into and through Olivette for business and pleasure purposes. These roadways also serve thousands of motorists throughout the region traveling to and from various destinations. Thus, the motorists stopped for traffic violations are more reflective of the population of the metropolitan area rather than the resident population of Olivette. With the I-64/US 40 construction project, there was an increased number of traffic stops by local law enforcement as more commuters utilized alternate routes, including Olive Boulevard.

Agency response

The City of Osage Beach is unique in that it lies along the shores of the Lake of the Ozarks, one of the largest man-made lakes in the nation. The City is a major destination resort area and has wide fluctuations in population during the year. The City is also home to Osage Beach Premium Outlets, a shopping mall featuring over 110 stores, which draws tens of thousands of visitors to our city.

RACIAL PROFILING DATA/2009

Agency: Palmyra Police Dept.

Population: 2,537

age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	1349	1264	62	12	3	1	7
Searches	58	52	4	2	0	0	0
Arrests	71	65	3	3	0	0	0
Statewide population %	N/A	83.54	10.71	2.50	1.51	0.51	1.23
Local population %	N/A	95.27	2.88	0.67	0.28	0.24	0.67
Disparity index	N/A	0.98	1.60	1.33	0.81	0.31	0.77
Search rate	4.30	4.11	6.45	16.67	0.00	0.00	0.00
Contraband hit rate	32.76	32.69	50.00	0.00	#Error	#Error	#Error
Arrest rate	5.26	5.14	4.84	25.00	0.00	0.00	0.00

Notes: Population figures are 2009 Census estimates for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

#Error indicates zero denominator.

Agency response

Our higher than proportional incidence of stops of black and Hispanic citizens centers around the fact that there are 6 food processing plants within a 45 minute drive of Sedalia. The workers live in and around Pettis, Johnson and Saline counties and drive to the plants daily. Tyson Foods of Dresden, Missouri is the largest food processing plant in Pettis County. These plants employ a large number of Hispanic and black workers. Many of the Hispanic workers are illegal aliens and as such do not appear on the census rolls. Along with this is the fact that the University of Central Missouri is located in Warrensburg, Missouri in Johnson County. A large number of day and evening students from surrounding counties commute to UCM daily. Vehicle stops by the Sheriff's Office are based on traffic violations observed, not the possible race of the drivers. The vast majority of the time the race of the people stopped is unknown until the vehicle is actually stopped. Searches are conducted based on the actions of the individuals stopped or incident to lawful arrest. Race is not a factor in deciding who will or will not be asked for consent to search or who will be searched incident to arrest.

Agency response

While the population of Platte Woods is listed at 409 age 16 and older, the last traffic count (2008) lists a daily count of 85,387 per day on I-29 and MO 9 Hwy. This number does not include MO State roads NW Prairie View and NW Roanridge, which are the access roads for I-29, and NW 72nd Street, which is the main east-west arterial roadway on our south city limit. These three additional roadways add approximately 16,000 more vehicles traveling through on a daily basis.

Agency response

The City of Raymore, Missouri, maintains the only 24-hour Wal-Mart Supercenter in the entire South Kansas City metropolitan area. The Supercenter services a number of communities, such as Grandview, Raytown and South Kansas City, all of which have a more racially diverse population than Raymore. It is the position of the Raymore Police Department that any disparities in the proportion of stops/proportion of population can be attributed to the fact that a large portion of the motoring public do not reside within the city limits of Raymore.

Agency response

Raytown has numerous main traffic routes through the city, including MO 350 Highway. Approximately 65% of our stops are non-Raytown residents. The Raytown School District serves a population of 60,000 while our city has a population of about 29,000 and 10 square miles.

Agency: Reeds Spring Police Dept.

Population: 510

age 16 and over

Agency response

The City of Richmond Heights is a 2.8 sq. mile city incorporated in 1913 located on the western boundaries of the City of St. Louis. Richmond Heights has three miles of U.S. 64 (Highway 40) running directly thru it. Highway I-170 runs north and south from U.S. 64 to the city limits of Clayton. Located in Richmond Heights are the Galleria Shopping Mall and the new Boulevard Shopping District. The Galleria Mall and the Boulevard generate approximately 11 million shoppers or visitors each year. Richmond Heights also borders the City of Clayton, which is the County Seat for St. Louis County. Thousands of vehicles travel thru Richmond Heights on a daily basis due to its geographical location. Estimated daytime population of Richmond Heights is 26,000.

Agency response

The Riverside Department of Public Safety by policy and practice prohibits racial profiling. Riverside's population for ages 16 and over is 2,778. However there are factors which increase the driving population above what would be expected for a town with this population count. Those factors include: a daytime population which grows by 87%; the presence of a riverboat casino; bordering on two major metropolitan cities (K.C.Mo. And K.C.Ks.); and state and federal highway routes traveling through the City with a daily traffic count approaching 300,000 vehicles.

Agency response

Scott County has an outlet mall and Southeast Missouri University Regional Site. We also have 22 miles of interstate, the famous restaurant Lambert's, two airports (one is the largest between St. Louis and Memphis) and Good Humor Bryant Distributor (which has numerous employees).

Agency: SE MO State University - DPS

Population:

age 16 and over

RACIAL PROFILING DATA/2009

Agency: **Smithville Police Dept.**

Population: 4,789

age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	3635	3453	79	52	40	3	8
Searches	254	230	14	8	2	0	0
Arrests	205	183	12	7	3	0	0
Statewide population %	N/A	83.54	10.71	2.50	1.51	0.51	1.23
Local population %	N/A	95.64	0.38	2.07	0.77	0.48	0.67
Disparity index	N/A	0.99	5.78	0.69	1.42	0.17	0.33
Search rate	6.99	6.66	17.72	15.38	5.00	0.00	0.00
Contraband hit rate	29.92	31.30	28.57	0.00	0.00	#Error	#Error
Arrest rate	5.64	5.30	15.19	13.46	7.50	0.00	0.00

Notes: Population figures are 2009 Census estimates for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

#Error indicates zero denominator.

Agency response

Interstate Hwy 70 runs through the entire City of St. Charles and essentially divides the city in half, north and south. The interstate, aside from carrying interstate traffic, is the main artery carrying daily commuter traffic from the City of St. Charles and cities west of St. Charles to the Greater St. Louis Area. St. Charles also contains two highly traveled state highways, Hwy 94 and Hwy 370, which also serve as main arterial routes as well as feeding interstate 70's local, regional and interstate traffic. State Hwy 364, to a lesser degree impacts traffic volume in the City. St. Charles is the County Seat of St. Charles County and contains the County Jail, County Courts Building and all of the county's administrative offices. All such business conducted in person with county government, is processed in St. Charles and greatly contributes to traffic in the city's core business area. The Historic Main Street District, in the heart of St. Charles is the site of approximately 75 festivals and special events, drawing crowds from hundreds of miles. The two largest festivals, July Fourth and the Little Hills Festival (occurring in August of each year) will have attendance of nearly 100,000 people. Even beyond the scheduled festivals, the city's Historic District and Frontier Park are daily attractions for tourist traffic from outside the city. The City of St. Charles contains its own Convention Center, hosting a variety of national/regional conventions and seminars, along with 17 hotels containing a total of 2100 guest rooms. The St. Charles Family Arena is an events style facility with seating for over 11,000 and hosts its own busy schedule of concerts, sports and entertainment programs. Although the arena is not in the city limits of St. Charles, the direct route to the facility is. Traffic control to and from events at the arena is always a labor intensive issue. The Ameristar Casino is contained in the city limits and draws 10.5 million visitors annually from far beyond the City of St. Charles. Aside from gaming, the casino hosts its own separate but equally busy schedule of sport and entertainment programs. The casino is also one of the city's biggest employers. Lindenwood University, within the city limits, provides education and boarding to a large national and international student body. Their residential population is approximately 3500 students and they serve 6,000 commuters.

Agency response

The City of St. John has a high percentage of minority vehicle operators on the main thoroughfare (State Hwy 180) through the City since St. John has the first shopping center west of high minority populated areas, which accounts for 43.8% of all traffic stops. St. John and cities west are the first areas west of the highly minority populated areas that have restaurants, retail centers and service related establishments. Thus, the high percentage of minority driven vehicles is totally disproportionate to the lower population percentage within the City.

Agency response

There were a total of 85,622 vehicle stops reported by officers in the Saint Louis Metropolitan Police Department in 2009. African-American drivers made up 62.13% (53,200) of the total; while white drivers comprised 34.67% (29,681).

In 2009, total 2009 traffic stops (85,622) increased 7.28% from 2008 (79,810). Much of the increase can be attributed to initiatives to increase patrol and traffic enforcement on major thoroughfares throughout the city and increased patrols in high-crime areas.

The persons stopped in vehicles were searched by police 5.94% of the time (85,622 stopped; 5,090 searched). The search to stop ratio decreased from the 2008 ratio of 6.18% (79,810 stopped; 4,932 searched).

Searches with arrest warrants outstanding: In 2009, 75.05% (2,515 of 3,351) of the arrests were a result of an outstanding warrant. These kinds of arrests always require that the custodial search be performed. Of the 2,515 warrant arrests, 2,132 were African-Americans (84.77%) and 362 were white (14.39%). The remaining 21 arrests were of other races/ethnicities.

Searches without an outstanding arrest warrant: There were 3,532 stops where a search was conducted on a white or African-American that were not arrested on an outstanding warrant. Of that number, 2,575 (72.9%) were African-American and 957 (27.1%) were white.

Agency response

While the data compiled in this report is informative, any conclusions drawn from the data must be tempered with common sense. For example, population data used to calculate the disparity index does not include members of the minority community that reside in the City of St. Louis and, therefore, increases the diversity of drivers on the road within St. Louis County. Nor does the data reflect that in a majority of traffic stops, police officers do not know the race of the driver prior to initiating the traffic stop. Our Department policy specifies that race-based detentions, traffic stops, arrests, searches and seizures of property are forbidden. In 2009, our Department received 332,534 calls for service; officers made 14,918 full-custody arrests and 85,266 traffic stops with one unfounded complaint of racial profiling. All commissioned officers participate in annual cultural diversity and sensitivity training and specialized training that prohibits the illegal practice of racial profiling. Supervisors review traffic stop data on a quarterly basis to ensure that officers do not engage in biased based policing.

RACIAL PROFILING DATA/2009

Agency: **St. Louis Park Rangers**

Population:

age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	1582	736	797	26	16	1	6

Agency response

Thank you for the opportunity to provide an explanation regarding the 2009 summary of racial profiling data for the City of Town and Country. It is unfortunate that our disparity index is based upon the population demographics of the City of Town and Country, which has a population of approximately 11,000 people with an African American population of 2.23 percent. Nearly 400,000 motorists travel through out city limits each weekday with the second most voluminous interchange in the state (Interstates 64 and I-270). Our motoring public is reflective of the demographics of the state and St. Louis County, which are comprised of African American populations of 10.71 and 19 percent respectively. The traffic stop data for Town and County Police Officers indicates that only 3.6 percent of the motorists stopped are residents of Town and Country. The natural implication of this statistic is that the ratio of the race f motorists stopped for violations would reflect state and county demographics, not the City of Town and Country. The Town and County Police Department is committed to the fair and impartial application of the law while attempting to maintain a safe environment for all people who travel in and through our City limits. A careful examination of the data indicates that our practice matches this policy.

RACIAL PROFILING DATA/2009

Agency: Truesdale Police Dept.

Population: 412

age 16 and over

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Stops	135	123	8	3	1	0	0
Searches	30	27	2	1	0	0	0
Arrests	5	3	1	1	0	0	0
Statewide population %	N/A	83.54	10.71	2.50	1.51	0.51	1.23
Local population %	N/A	82.04	7.77	6.55	0.73	2.18	0.73
Disparity index	N/A	1.11	0.76	0.34	1.02	0.00	0.00
Search rate	22.22	21.95	25.00	33.33	0.00	#Error	#Error
Contraband hit rate	13.33	14.81	0.00	0.00	#Error	#Error	#Error
Arrest rate	3.70	2.44	12.50	33.33	0.00	#Error	#Error

Notes: Population figures are 2009 Census estimates for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

#Error indicates zero denominator.

Arrest rate	0.00	0.00	0.00	#Error	#Error	#Error	#Error

Notes: Population figures are 2009 Census estimates for persons 16 years of age and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

Search rate = (searches / stops) X 100.

Contraband hit rate = (searches with contraband found / total searches) X 100.

Arrest rate = (arrests / stops) X 100.

#Error indicates zero denominator.

Notes: Proportion of stops by racial category/proportion of statewide population of that racial category. A value of 1 indicates local stops within a racial category equivalent to that racial groups proportion in the state population. A value less than 1.0 indicates a lower proportion of stops of that racial group lower than its proportion in the state population. A value greater than 1.0 indicates a higher proportion of that racial group than its proportion of the statewide population.
